

*Are potential customers on the road able to find you on Google Places, navigate straight to your mobile phone website then use 'Get Directions' to find you?*

**This is included with every website we build.**

*Are you paying excessive monthly charges for hosting, domain name registration or other web related services?*

**We will analyze your current web costs and reduce them for you.**

*Are you paying third party contractors to make changes or add content to your website?*

**We will install a simple and effective CMS on your present site which will allow you to reduce costs and regain control.**
